1 User documentation for Design Automation at TI
Diana Mae Sims, James S. Crabbe
June 1981 **Proceedings of the 18th conference on Design automation DAC '81**
Publisher: IEEE Press
Full text available: pdf(720.83 KB) Additional Information: full citation, abstract, citings, inc

The use of documentation is design automation is extensive. The &ldquoDADGUIDE" Documentation System at Texas Instruments' Design Automation Department accon many documentation tasks by means of a set of procedures, local and central compu processing programs with macro capabilities, and physical text formatters. The docu output is resident on a data set at the central computing facility. When users reques documents through submission of batch jobs, they exe ...

1 The persistent store as an enabling technology for integrated project support environments

Ronald Morrison, Alan Dearle, Peter J. Bailey, Alfred L. Brown, Malcolm P. Atkinson

August 1985 **Proceedings of the 8th international conference on Software en ICSE '85**

Publisher: IEEE Computer Society Press

Full text available: pdf(688.27 KB) Additional Information: full citation, abstract, referenc index terms

The software engineering community has recognised the need for integrated proje environments (IPSEs) for some time. The technique of integration as a method of applies to all levels in the hierarchy of problem solving, both hardware and softwa paper discusses one such level, that in which the IPSE is implemented and in parti use of a persistent store as an enabling technology for IPSEs. The facilities of the I PS-ALGOL necessary to su ...

2 An empirical study of the behavior of programs in a paging environment

L. C. Varian, E. G. Coffman

January 1967 **Proceedings of the first ACM symposium on Operating System SOSP '67**

Publisher: ACM Press

Full text available: pdf(668.82 KB) Additional Information: full citation, abstract, referenc index terms

This paper reports initial results from an empirical study directed at the measurem program operating behavior in those multiprogramming systems in which program organized into fixed length pages. The data collected from the interpretive executi number of paged programs is used to describe the frequency of page faults; i.e. th frequency of those instants at which an executing program requires a page of data instructions not in main (core) memory. These data are used al ...

3 Memory allocation in paging systems

Art Lew

August 1973 **Proceedings of the annual conference ACM'73**
Publisher: ACM Press
Full text available: pdf(356.14 KB) Additional Information: full citation, abstract, referenc terms

We discuss in this paper three major problems related to the allocation of memory in paging systems. These are the problems of deciding how best to distribute prog and data into pages (pagination), of deciding which pages residing in main memor next be removed (replacement), and of deciding how many pages of each of sevei competing programs should be permitted in main memory (allotment). We do not definitive solutions to these problems, as inde ...

5 Experience with a space efficient way to store a dictionary
Robert Nix
May 1981 **Communications of the ACM**, Volume 24 Issue 5
Publisher: ACM Press
Full text available: pdf(258.60 KB) Additional Information: full citation, abstract, referenc index terms

The paper, "Computer Programs for Detecting and Correcting Spelling Errors" by J Peterson [3], listed methods for checking and correcting spelling errors. One signi method, however, was not included: a probabilistic technique suggested by Carter Markovsky, and Wegman [1]. The present note discusses aspects of these practic efficient algorithms for testing set membership—a simple abstraction of looking a dictionary. An impleme ...

6 Another spelling correction program
Peter Robinson, Dave Singer
May 1981 **Communications of the ACM**, Volume 24 Issue 5
Publisher: ACM Press
Full text available: pdf(233.87 KB) Additional Information: full citation, abstract, citings, i

We read James L. Peterson's article, "Computer Programs for Detecting and Corre Spelling Errors" with great interest. We too have recently developed a spelling cor program as part of a tutorial on programming techniques and style. Our basic mo inhibited us from publishing the details—there was, after all, little research involve the program. However, on reflection, there are several features in our design that merit wider circulation.

7 Coding quality and tools in programming methods

G Perlman

July 1986 **ACM SIGSOFT Software Engineering Notes**, Volume 11 Issue 3

Publisher: ACM Press

Full text available: pdf(384.73 KB) Additional Information: full citation, abstract, index ter

Twenty-two programming tools were introduced in coordinated exercises as part c programming methods course. Twenty-two or twenty-four graduate students with experience responded to a survey asking about previous and intended use of the t survey showed that many tools were new and useful to the students. My conclusic is worthwhile to incorporate a module on coding quality and tools in software engi programs.
